VOLUME CIX.--NO. 112 ALEXANDRIA, VA., SATURDAY EVENING, MAY 23, 1908. PRICE 2 CENTS

A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherry-bark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherrybark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, hang-on, chronic coughs, bronchial and laryngeal troubles and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the lingering hang-on coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures.

Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago, says of glycerine:

"In dyspepsia it serves an excellent purpose. Holding a fixed quantity of the peroxide of hydrogen in solution, it is one of the best manufactured products of the present time in its action upon enfeebled, disordered stomachs, especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of stomach), it is a most efficient preparation. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric (stomach) acidity."

"Golden Medical Discovery" enriches and purifies the blood curing blotches, pimples, eruptions, scrofulous swellings and old sores, or ulcers.

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the native medicinal roots composing this wonderful medicine. There is no alcohol in it.

CHARGED WITH SIX MURDERS.

James Brimmingstall, aged forty, is under arrest at Dowagiac, Mich., charged with six murders. The police say he has already confessed to two of the murders. His arrest followed an alleged attempt to make his wife his seventh victim. She escaped and appealed to the police. The police say he confessed to killing a man in Kansas, whom he had a grudge against, and was sentenced to ten years in the penitentiary. After his release he killed a companion and received a sentence of three years.

The list of Brimmingstall's victims, according to the officers, is:

Man in Kansas (name not given), killed by Brimmingstall when the murderer was only sixteen years old.

Railroad man in Missouri, name unknown, killed seven years ago.

Two men sleeping in a tent in Missouri, names unknown to officers.

David Huff, Dowagiac, June 1907.

Smith Hortium, Dowagiac, February, 1908.

David Huff, an aged citizen of Dowagiac, went to the Brimmingstalls to live a year and a half ago. He deeded to them his property on their proposition to support him for the remainder of his life. One night last June a scuffle was heard in an upper room of the house. Huff was found dead in bed with the bed clothing much disturbed. Brimmingstall said that Huff had some sort of violent illness—colic or something like it—and accidentally choked himself to death with the bed clothing.

CLOUDBURST.

An unconfirmed report was received in Cumberland, Md., last night that the driver and several passengers of the stage which plies between Keyser and Moorefield, Hardy county, W. Va., were drowned by a cloudburst, which overtook them at a treacherous ford of Patterson creek at Williamsport, W. Va. Two of the wheels of the stage have floated down to Burlington, but none of the bodies have been recovered. The telephone lines are down and details are unobtainable.

Several persons have lost their lives at this ford in previous floods.

New Creek, which flows through Keyser, is higher than in years, even exceeding the swollen proportions attained at the time of the Johnstown flood. Considerable live stock has been washed away. Many families have been driven from their homes, and the streets are flooded.

A cloudburst greatly damaged property at Westernport. In some instances the water rushed through the lower floors of the houses. On one street the water reached the firebrick paving, completely wrecking the street.

The public school building at Westernport was surrounded by rushing waters, but the principal, O. H. Bruce, managed to get all the pupils out safely.

At a point below dam No. 6 the Potomac river and the Chesapeake and Ohio canal are flowing together for a stretch of several miles, and boating has been suspended. It is feared the canal bank will be seriously damaged.

Mr. John Riha of Vining, Ia., says, "I have been selling DeWitt's Kidney and Bladder Pills for about a year and they give better satisfaction than any pill I ever sold." Sold by W. F. Creighton & Co.

PASTOR RESIGNS.

Rev. Robert Arthur Elwood, pastor of the First Presbyterian Church, of Leavenworth, Kansas, tendered his resignation to the elders of the church yesterday morning, and it was accepted. He is from Wilmington, Del.

The resignation of Mr. Elwood followed charges preferred against him by the mother of one of the young girls in the church choir.

Mr. Elwood, when confronted with letters alleged to have been written by him to the young choir girl, admitted that he had written them. The letters to the young lady are said to have referred to passages of the scriptures and to have been of an affectionate nature.

Mr. Elwood is a married man with a wife and two children, and the part that came in for criticism is that he should have acted indiscreetly in writing any letters of this nature.

Mr. Elwood was brought into prominence at Wilmington, Del., by an incendiary sermon he delivered a couple of days before the burning at a stake near Wilmington of George White, a negro, on June 23, 1902, for an assault on the daughter of Dr. Bishop, principal of Ferris Industrial School.

DeWitt's Little Early Risers are small, safe sure and gentle little pills. Sold by W. F. Creighton & Co.

DELEGATES TO CONVENTION.

I have noticed in the columns of the Gazette frequently where their were struggles for the honor of being delegates to the state democratic convention in the various cities throughout the state. I remember the time when the honor of being a delegate from this city was much sought after, and I believe it still would be if things were properly advertised. I see by your paper that the democratic committee has settled the whole thing in regard to delegates and the names of the ones chosen appear as the choice of 2,000 voters when these voters knew nothing about a meeting. What authority have these few men—called the democratic committee—to select delegates and thereby voice the sentiment of our democratic constituency? I would like you to answer the question. There are many men who would like to go as delegates to the Roanoke convention, men with decided views as to the one to be endorsed by the state, and perhaps would have entered the contest, if such there should have been, but the "committee" has settled the matter and there are few, if any, who know how those selected may stand in regard to a standard bearer to be chosen by the democratic party. It's an ill wind that blows no one good, however, and, judging from a casual glance at the list, it appears to me that the "committee" has been good to some people by not giving the voters a chance to express their views in regard to their fitness to represent them. If I am not much mistaken this is an unusual proceeding endorsed by no one but the committees, from what I can learn. H.

Any Man or Woman can transform a soft wood floor into a perfect imitation of a beautifully grained hard wood floor in a few minutes with

Chi-Namel

and the Chi-Namel Self-Grainer

Or an old hard wood floor, furniture, etc., may be made to look like new, with a harder, more durable finish than it had originally.

Chi-Namel colors the wood, and varnishes it at the same time, and the surface is so hard that walking or washing will not remove the gloss.

This new self-grainer makes it easy for anyone to produce a beautiful grained effect, exactly like the most expensive hard wood floors.

Call at our store and allow us to demonstrate how easy it is to grain and varnish by this improved system.

CHOICE PEARL HOMILY and BREAK FAST GRITS, for sale at J. C. MILBURN

SATURDAY EVENING, MAY 23, 1908

SPEAKER CANNON and those who aid him in controlling the House against the public interest showed yesterday evening that in their opinion the American people are stupid and ignorant, capable of being fooled by the lowest forms of political trickery, and competent to form no intelligent judgment of the tricksters who attempt to deceive them. They passed by a vote of 160 to 125 a bill providing for publicity of all contribution, for election purposes but coupled with it was a provision to reduce the representation of the Southern States in Congress. The purpose, obvious to all persons, was to prevent the passage of the publicity bill by coupling with it a proposition which the Senate will not accept. But at the same time these tricksters expect the general public to believe that they have placed themselves upon record as favoring the publicity proposition, when they merely have taken the surest means of killing it. For ways that are dark and for tricks that are vain the average republican politician is peculiar.

THE Sixtieth Congress will pass into history as the spurious congress. It has done nothing worthy of a great representative body. In its appropriations it has been more extravagant than any of its predecessors, and will leave the government $60,000,000 in arrears on the first day of July next, and $160,000,000 in arrears on July 1, 1909, so that money will have to be borrowed even for running expenses. It has refused to modify the tariff even on wood pulp and print paper, and failed to enact currency legislation. It has upheld the president in his wild and dangerous assertions of the supremacy of the military over the civil power. Its sins of commission and its sins of omission are equally flagrant, because both are as bad as possible. It's early adjournment should be welcomed by the American people. The only defect in the constitution is that it requires this Congress to meet again before its dissolution.

EXPRESSING regret that he was compelled to "break" with his democratic colleagues on the subsidy proposition, Mr. Hobson, of Alabama, yesterday vigorously supported that measure in the House, saying the ocean mails plan was a matter of national importance and not a gratuity to private interests. The measure was defeated and Mr. Hobson made nothing by his "break." He has voted against his party on several important issues, taking this method of keeping himself before the public. He is entirely out of place in Congress and should be left at home.

A VERY pertinent question was asked Medill McCormick, of the Chicago Tribune, by Representative Ryan, a democratic member of the committee investigating the paper trust. "If similar conditions could be shown to exist in other industries should the tariff affecting them not be revised also?" Mr. McCormick declined to express an opinion other than through the editorial columns of the Tribune. As the Tribune has been noted for exploting tariff reform in "off years," and then supporting standpatters for election, it really hinders tariff revision more than helps it.

THERE was a further increase of idle freight cars in the United States at the end of last month over the previous high record established two weeks earlier. According to the report of the American Railway Association there were 413,338 idle cars, an increase of 37,714 over April 15. Last October there was a shortage of 86,811 freight cars. Still the republican leaders tell the people that "prosperity" is returning and that all that is necessary for good times is a continuation of a republican administration!

MORE than 1,000 of the 6,000 families in Atlantic City have already been listed as "dead beats" on the list made up by the managers of the credit bureau, started for protection of local merchants. Scared by the discovery that so many people are poor pay the merchants are discussing issuance of a tin-tag to those who are worth trusting to identify them with the dealers in all sorts of wares.

THE democrats in Congress are still demanding the consideration of the campaign publicity bill; a bill to put wood pulp and print paper on the free list, and the anti-injunction bill. These measures are insisted upon by Mr. Williams, the democratic leader, as part of the president's legislative programme.

REPUBLICAN congressmen are still standing pat for the trusts, the universal protest of the newspaper publishers about the tariff protecting the paper combine notwithstanding.

Judge Waddell in the U. S. Court at Richmond yesterday enjoined the city authorities of Richmond from putting into effect the general transfer ordinance for the street railway.

From Washington

[Correspondence of the Alexandria Gazette.]

Washington, D. C., May 23.

Denial was authorized by the president today that Attorney General Bonaparte had threatened to resign from the cabinet, or that there had been any dissension whatever between the president and the attorney general with respect to the suit filed by the Department of Justice yesterday in Boston against the New York, New Haven and Hartford Railroad under the Sherman anti-trust act. It is stated that the determination to sue the railroad was reached sometime ago, and that the president had no thought of suspending the proceedings, as had been alleged. There was only a legal question raised as to whether the suit should be brought in Boston or Connecticut, and this was decided in favor of Boston. The statement issued from the White House says the story is a mere invention.

In returning seven true bills against Ray Lamphere yesterday afternoon the Laporte county, Ind., grand jury also indicted Mrs. Belle Gunness for the murder of Andrew Helgelein, of Mansfield, S. D. No warrant was issued for Mrs. Gunness, as she was declared officially dead by the verdict of Coroner Mack, but in order to vote a true bill against Lamphere as an accessory in the killing of Helgelein it was necessary to indict Mrs. Gunness as the principal. Lamphere now stands before the bar of justice officialy charged with arson, five murders and being an accessory in the Helgelein murder.

The monitor Florida will be called upon next Monday to furnish a practical demonstration of the effect of a bombardment from the guns of a war vessel on the internal fittings of a war craft's structure. An attack will be made on the Florida in Chesapeake Bay by great guns and exploding torpedoes and the experiment will be the most sensational ever attempted by the American navy. Notwithstanding the extreme danger there have been scores of request from persons wishing to occupy the armor plated turret when it is fired upon. These requests have been denied. A distinguished company of naval men will leave Washington Monday to view the bombardment. The Florida was picked for the experiment because her internal division bears a close relation to the framing and interior sub-divisions of the latest type of American battleships.

Secretary of the Navy Metcalf has written to the mayor of Philadelphia deploring the action of the proprietor of a cafe in that city in refusing to serve refreshments to enlisted men of the navy in uniform.

The President today signed the Washington street railway bill.

Congress will adjourn Tuesday, according to a decision reached today, in a conference between the House and Senate leaders.

Charges of pernicious political activity have been made to the state department against Herbert G. Squires, the United States minister to Panama, and an appeal has been made that he should either be recalled or instructed not to mix so publicly as he has been doing in the political campaign now being waged for the presidency of the republic.

As a result of a canvas of the House today by agents of the administration a separate measure for a ship subsidy will probably be brought in for passage instead of continuing the fight to get the subsidy as a rider on the postoffice appropriation bill.

Sixtieth Congress.

Washington, May 23.

SENATE.

The Senate Journal of yesterday's proceedings was read in full this afternoon for the purpose of killing time. This has not previously happened at this session. The titles and names of beneficiaries in nearly 200 claims cases appeared in the journal.

Senator Aldrich called attention to the rapidly increasing number of war claims. He said the government is helpless to defend itself against them. He thought legislation should be enacted to stop this stream of claims.

Mr. Hopkins said that at the close of the civil war sixty million claims were filed before the Southern Claims Commission and fifty-five million of them were rejected. He noticed now that many of these rejected claims are coming before Congress.

When the Elkins commodity resolution came up the unfinished business in the Senate today Senator Kean asked for a vote. The question was being put and the resolution nearly slipped through when two or three Senators awakened to what was happening and asked that it be laid aside.

HOUSE.

Another bitter fight occurred in the House today over the conference report on the Mondell bill doubling the size of homestead entries and a personal encounter between Messrs. Reeder of Kansas and Mondell of Wyoming was narrowly averted.

Mr. Stevens (dem., Texas) insinuated that the measure was a move to allow the big cattle companies to double their land holdings and absorb water resources.

Mr. Reeder (repu., Kansas) warned the House that the bill opened up a loophole in the Lieu Lands. He predicted his statement partly on what a man who had come from Wyoming to Kansas had told him.

Mondell suggested some bad men had gone into Kansas.

"Yes, and I have wondered why the people of Wyoming had not sent this man to Congress," snapped Reeder.

"Men in the west seldom send men here who do not vote what they want, and I presume that men that advocate his bill have hundreds of thousands of acres of western land and they have the American disposition to want everything that adjoins them."

Mr. Mondell declared this was a reflection on him and demanded an apology. Mr. Cook (repn., Colo.) advanced down the center aisle to Mr. Reeder with a belligerent air.

Both Mr. Reeder and Mr. Mondell demanded the stenographer's notes be read. Proceedings were stopped. The speaker read a section of the rules to quiet down the members and ordered the sergeant at-arms to make members take their seats.

When the notes were read, the speaker held the words did not reflect on Mr. Mondell. The Wyoming congressman agreed with the speaker but said he understood Mr. Reeder to say something else.

The House voted down the conference report, 98 to 148. This vote is taken as the death of the bill. Mr. Mondell, however, began a fight to have the bill sent back to conference.

The statue of the late senator from from Ohio, Marcus A. Hanna was unveiled with imposing ceremonies at Cleveland this afternoon. The statue stands on the banks of a lake in Wade Park. The statue was unveiled by Mrs. Ruth Hanna McCormick and Mrs. Mable Hanna Parsons, daughters of the senator. The oration by John W. Griggs, former attorney-general of the United States, followed.

At the height of the heaviest storm Philadelphia has known in 10 years Christ Church, erected in 1695, was struck by lightning last night, and the spire, which was built by Benjamin Franklin and from which he originally intended to try his electrical experiments with a knife, was partly destroyed by fire. Prompt work on the part of the firemen saved the church. The church, containing Washington's family pew and many priceless colonial relics, was not damaged. The fire began in the midst of a violent rainstorm which caused considerable damage.

The unification of the Methodist Protestant and the Methodist Episcopal Churches has been brought one step nearer. The General Conference of the Methodist Protestant Church, which is meeting at Pittsburg, yesterday adopted the report of the committee. The report, which favors union, was adopted, with few changes by amendments. This report cuts off definitely the negotiations of many years between the Methodist Protestants and the Congregationalists for an amalgamation. It also interrupts the present plan, almost consummated, for union with the United Brethren.

SHOT IN FAMILY FEUD.

A serious shooting affray occurred at Pitts Creek, a few miles below Pocomoke City, Md., near the Virginia line yesterday.

The shooting will probably result in the death of Edward J. Brittingham, who was shot by Leonard C. Parks.

For several years the Brittingham and Park families have disagreed over a division line between their respective lands. A jealousy has also arisen over the fact that both families conduct a general store about 300 yards apart at Pitts Creek. Four men are implicated in the shooting—Edward J. and Charles E. Brittingham and John H. Parks and his son Leonard.

Yesterday when Charles Brittingham met Leonard Parks near the latter's home, an altercation arose and both men fought furiously for sometime until representatives from both families arrived upon the scene. Finally pistols were reserved to. All the men bear evidence of the battle.

At a preliminary hearing before Justice of the Peace Quinn both John H. and Leonard Parks were held under heavy bail.

EPISCOPAL COUNCIL DIOCESE OF VIRGINIA.

Fredericksburg, Va., May 22, 1908.

THIRD DAY.

MORNING SESSION.

The council met for business at 9:45 o'clock in St. George's Church with Bishop Gibson in the chair. After the reading of the minutes by the secretary a letter of congratulation was read from the convention of the Diocese of Maryland in Baltimore to the council of the Diocese of Virginia. The secretary was instructed to send a proper reply. The bishop then read a letter to the council asking for a bishop coadjutor on account of the amount of work in the diocese. On motion of Rev. W. M. Clark it was agreed that the bishops and standing committees of the various dioceses of the church be requested to give their consent to the election of a coadjutor bishop. The election of a coadjutor bishop, should the consent of the bishops and standing committees be given, will not take place until the next annual council of the diocese. The Rev. H. B. Lee read the report of the committee on so much of the bishop's address as refers to the appointment of an archdeacon. The committee recommends the appointment of an archdeacon for one year at a salary of $2,000 with traveling expenses paid. After the reading of the report the council took a recess at 11 o'clock for divine service at which the Rev. James W. Morris, D. D., of Richmond preached. The council met again for business at the close of service when several reports, some of them routine, were made. The committee on clerical support was glad to report that notwithstanding the financial stress during the past few months there has been no failure in the payment of salaries. They also recommend that on account of the high price of living at the present time the salaries be increased as far as possible, so as to make them adequate for the present need. The committee also suggested that there be an assistant treasurer in each country parish and that this assistant be a lady who will take an active interest in keeping up the parish. Judge Scott who read the report spoke of a discussion in the committee upon the minimum salary of a clergyman. They could not agree to make a recommendation. For his part he thought it should be $900 and he was sorry that it was not incorporated in the report.

The report of the committee on the state of the church in the diocese was read by the Rev. E. B. Burwell and presented a most interesting summing up of the spiritual condition of the diocese with its growing activities. The report referred to the earnest and unselfish consecration of the bishop to his work and the committee hoped that he would be spared for many years to the diocese. The missionary work of the church in all portions of the diocese, especially that in the mountain sections under Archdeacon Neve and his co-workers, the Revs. Messrs. Mayo, Ellis and Mason, has made wonderful progress.

The report of the committee on parochial reports was next read by the Rev. Mr. Dickinson and is summarized as follows: Baptisms—771 white, of these 214 are adults; colored, 30 adults, 23 infants; whole number of communicants is 13,916, the largest yet reported. Sunday school teachers, 1,101; scholars, 9,699; contributions for parochial purposes, $182,012.84; general missions, $23,574.86; church property, $1,182,385; church sittings, 40,558; insurance on church property, $85,000; members of Woman's Auxiliary, 1,720; offerings of auxiliary, $1,730.08; members of Junior Auxiliary, 887; Brotherhood of St. Andrew, 354.

The report on colonial churches was next read by the Rev. E. L. Goodwin. He said that the number of these churches corresponds with the number given by Bishop Gibson in his address, consisting of 19 in all. The committee recommended that the sites of all old churches that have been destroyed should be marked.

An excellent report on the increase of the ministry was read for the committee by Dr. Micou, of the Seminary. It called attention to the need of preaching at least one sermon a year on this subject on the part of the rectors of parishes. The inadequency of the support of the clergy is often urged as a reason for the decrease of candidates for the ministry in this material age, yet while there appears to be a decrease elsewhere, the number of students at the Virginia Seminary keeps up remarkably, and a large class of twenty students will be ordained this year. It is to be regretted, however, that the education society of this diocese is not supported as it should be and all contributions to college students are now cut off.

The report of the committee on the question of appointing an archdeacon was again brought up, and the Rev. J. Y. Downman, of the committee, but who dissented from the report, addressed the council and stated his objections to this appointment, although if the council stood for it he would not oppose it. The hour of adjournment having come it was agreed that Mr. Downman should continue his address when the council reconvened at 3:30 p. m.

EVENING SESSION.

The council met at 3:45 p. m. and Mr. Downman continued his address, on the conclusion of which the Rev. Mr. Ellis took the floor. After further discussion the vote was taken on the first section of the report, which provides for an archdeacon. This section was approved by a vote of 35 in favor of the appointment of an archdeacon and 15 against it. The full report of the committee was adopted and the bishop is authorized to appoint an archdeacon for one year, the archdeacon to be under the direction of the bishop at a salary of $2,000 and travelling expenses.

As the advisory board of the archdeacon of the Blue Ridge is of the opinion that an industrial school is of the greatest importance for that portion of the country, the council on motion of the Rev. W. M. Clark gave its hearty endorsement to this undertaking.

The cordial thanks of the council were accorded to the rector and vestry of St. George's Church and to the good people of the city for their generous hospitality and for the use of the church and parish house. The rector and congregation were congratulated on the handsome appearance of the church after its recent decoration and improvements.

The council then adjourned sine die with prayer and the benediction by the bishop.

At the service in the interest of foreign missions last night addresses were given by Mr. Hubert Carlton, general secretary of the Brotherhood of St. Andrew, on personal service, and the Rev. Reese F. Alsop, D. D., of Brooklyn, N. Y., gave an excellent address on foreign missions.

The meeting of this council was well attended and much interest was manifested in its proceedings, especially in the proposition referring to the election of a coadjutor bishop and the appointment of an archdeacon. There were no visiting clergy from other dioceses in attendance. The hospitality of Fredericksburg was most delightful and was heartily appreciated by the members of the council and all visiting friends. All the services in the church were well attended and rendition of the musical portion on the part of the organist and choir was highly commended.

SCOURING YOUR SCALP

Will Remove the Loose Dandruff Scales But It Won't Cure Dandruff.

If your hair is brittle and thinning, you have dandruff. The mere scouring of the scalp of the loose scales, won't cure dandruff; because dandruff is nothing but scales of scalp being thrown up by a pestiferous little germ in burrowing its way to the root of the hair where it saps the vitality, causing falling hair and, in time, baldness. Now you can't stop dandruff nor falling hair, nor prevent baldness unless you destroy that germ; and the only preparation that can do it is the new scientific discovery, Newbro's Herpicide. In fact no other hair preparation claims to kill the dandruff germ—all of them will clean the scalp; soap and water will do that, but only Newbro's Herpicide gets at the root of the trouble and kills the dandruff germ.

Today's Telegraphic News.

Attacked by Night Riders.

Ripley, Ohio, May 23.—The worst outrages yet attempted by night riders in Ohio was the armed attack on Walker Hook's residence early today. A band of 35 night riders attempted to destroy tobacco beds on Hook's farm at Red Oak, as he was watching them. He retired to the house and ordered the party away. They did not move and Hook fired his shotgun to scare them. The captain of the night riders called "fire" and a volley of 35 shotguns was empted into Hook's home, nearly tearing one end out, but injuring no one. Hook fired three times at the riders whose shots knocked all the windows out of the front of the house. Several shots passed through Hook's clothing. The riders then scraped the tobacco beds and departed. Hook's barn was burned this spring, its burning being attributed to night riders.

Besieged by Reporters.

Paris, May 23.—Bent on extracting either a confirmation or a denial of the report cabled from New York last night that Prince Helie de Sagan and Mme. Anna Gould were married by a Jersey City justice of the peace at a hotel in Hoboken April 10, a score or more of reporters from Paris newspapers are besieging Mme. Gould's chateau in the outskirts of the city today.

Though the couple have attracted considerable attention by their lover-like behavior since their return to Europe, they have both invariably manifested a strict regard for all the proprieties—rather stricter, or at least more formal—then would naturally have been expected from husband and wife.

Japan's Burden.

Tokio, May 23.—Leading Japanese financiers are bringing tremendous pressure on the government to curtail its military and naval activities in the interest of an improvement in commercial conditions. Between payment of expenses of the late war, the maintenance of the present enormous military establishment and the recent nationalization of the country's railways the nation is taxed to the point of collapse. Instead of recovering from the past few months' period of depression, conditions are steadily growing worse. The recent showing that the national debt will shortly reach a total of $1,300,000,000 has still further alarmed leaders of the financial interest.

Fire in Publishing House.

New York, May 23.—Readers of Harpers will probably have to wait some time for the June edition of the magazine, for it was part of the $100,000 fire loss that fell to Harper and J. Goldstein, a manufacturer, late last night. The June edition of the magazine was in type and ready for printing. The damage to both concerns was chiefly due to water.

A large part of the June edition of Harpers was lost. Valuable manuscrips, including works of Mark Twain, Wm. D. Howells and Mary Wilkins, were also lost. F. D. Lee, treasurer of the publishing house, says the loss to Harper Brothers will reach $150,000.

Denial from Taft.

Cincinnati, Ohio, May 23.—Secretary of War Taft stamps as a lie the story sent out from Fayetteville, N. C., to the effect that a colored messenger, who was said to have been with Taft, was refused a place in a railway car at the same table with Taft. Taft arrived in Cincinnati today en route for Cleveland.

Asked concerning the dining car story Taft said: "It is a lie made from the whole cloth. There is not even a foundation for the story."

Collapse of Strike.

Cleveland, Ohio, May 23.—Heroic measures by the police have apparently stopped rioting and dynamiting by the street car strikers and their sympathizers, and today more cars are running than at any time in the seven days of the strike. The strikers are voting today on the question of returning to work with the men now employed holding their runs until the arbitrators decide the seniority question. The strikers are apparently beaten.

The Henley Regatta.

Philadelphia, Pa., May 23.—With an entry list larger than any former year the American Henley will be rowed on the Schuylkill this afternoon. Over fifty crews will compete and ten universities are represented, including Pennsylvania, Harvard, Yale, Georgetown and New York. The crews are in excellent condition and spent the morning hours resting up for the final struggles this afternoon.

Stranded Steamer.

Galilee, N. J., May 23.—Ashore in the surf and fog on Brigantine Shoals, the crew of the steamship Hornzee were rescued today by life savers from Egg Harbor and Absecon. Detail of the wreck are meagre, but from the haste with which the men were taken off it appears that the Hornzee position is desperate. The vessel was bound from Cuba to New York with a cargo of sugar.

Forty Thousand Persons Drowned.

London, May 23.—Forty thousand natives have succumbed to famine in the past few months in the province of Uganda, British East Africa, according to a dispatch from Mombass, the British East African capital. The message says the goverament is at present feeding 50,000 and that the distress is horrible. The famine is due to repeated crop failures.

Died from His Injuries.

Pittsburg, Pa., May 23.—Jesse R. Bara, a Pennsylvania railroad brakeman, died here today from injuries received at the hands of highwaymen. While his train was nearing Braddock, Bard was knocked from a freight car and robbed. The condition of the body indicates that he had engaged in a desperate struggle before he was overpowered.

Disastrous Fire.

Dayton, Ohio, May 23.—One of the most disastrous fires early today destroyed the plant of the Dayton Manufacturing Co., and a number of residences in the vicinity of the factory building. It is estimated the loss will be $200,000. The fire is believed to have been of incendiary origin.

New York Stock Market.

New York, May 23.—The stock market was under tense pressure from the start and in the early part of the first hour the downward movement continued prices falling from one to over two 2 points.

The market closed lower with leading issues declining from 3 to 5 points.

Accepted Proposition of Newport News.

[Special Dispatch to the Alexandria Gazette.]

Richmond, May 23.—The board of visitors of the proposed new State school for colored deaf, dumb and blind children met here at noon today with all the members, including John Stewart Bryan, in attendance. Petersburg first presented her proposition, after which the proposition of Newport News was presented by Dr. C. P. Jones, who headed a delegation of citizens from that place. Dr. Jones's remarks were supplemented by argument on the part of Louis C. Phillips and others. A feature of the meeting was the presence of a delegation of farmers from Chesterfield to protest against the location of the institution in their neighborhood. The board decided to accept Newport News's proposition.

Attempted Murder and Suicide.

New York, May 23.—The only regret expressed by Adam A. Legezyska, who died early today, eight hours after firing a bullet through his brain, was that the shot he fired at his daughter, Mary, did not take effect. "She was facing a life of poverty and I could not stand it," he exclaimed shortly before he died. "Think of the fate of a poor girl in a city like New York."

Gould Defeats Miles.

London, May 23.—Jay Gould defeated Eustace Miles again today at tennis, this time in the Olympic game series.

THE METHODISTS.

Three ineffectual ballots for bishops of the Methodist Episcopal Church were cast by the general conference delegates, in Baltimore yesterday. The voting will continue today.

Dr. Charles Le Roy Goodell, pastor of Calvary Church, New York, was, regarded as a probable winner of a bishopric. While the fifth ballot was being taken, some one started the query, "Is not Dr. Goodell a divorced man?" It did not take long for it to be answered in the affirmative, and the result was that Dr. Goodell has practically put out of the race.

One of the tellers was accused by a delegate of electioneering for a candidate.

Rev. Dr. M. C. D. Mason, colored, withdrew as a candidate and intimated that German delegates had not performed their part of an arrangement by which the negroes were to vote for Rev. Dr. Nuelsen, who was elected, in return for which Dr. Mason was to get the German votes.

An effort to change the name of the Freedman's Aid Society to the Southern Education Society was opposed.

The committee on States of the church adopted a report which, if passed by the conference, will place the Methodist Episcopal Church on the side of union labor.

Members of the conference are congratulating the local committee on the fact that the conference will be able to pay all debts and turn over a surplus to the general conference fund. This will advertise the city wherever Methodism has found a foothold.

Rev. Dr. J. F. Heisse, of the pulpit supply committee, assigned bishops and prominent ministers to preach tomorrow in leading churches of the State and Washington.

Two ballots for the election of bishops were announced today, but there was no election on either. The conference today voted to adjourn sine die on June 1.

MALT BEVERAGE.

The law passed by the last legislature permitting Virginia breweries to manufacture and sell malt beverage—a non-intoxicating drink—is creating much discussion, and a portion of the press professes to find therein a so-called "joker" or, in other words, a provision surreptitiously introduced allowing breweries to evade the laws governing the sale of intoxicating liquors. A review of the law will disclose that such an impression is erroneous, as the section defining malt beverage shows clearly the intention to surround the manufacture of the beverage with every safeguard necessary to permit its sale where beer would be prohibited. Far from being stealthily introduced, this measure was widely discussed in the legislature and incoporated in the Byrd law with practically no opposition.

The law defines malt beverage to be non-intoxicating and not to contain over two and one-quarter per cent of alcohol by volume, and requires the manufacturer to pay a special license tax and give a ten thousand dollar bond not to violate the law. It further provides that sales shall be made by the manufacturer direct to the consumer in quantities not less than six bottles or more than four dozen, not to be drunk where sold, and to be sold in special bottles with the words "malt beverage" and the name and address of the manufacturer blow in the glass, and penalizing the filling of said bottles with any liquid containing more than two and a quarter per cent. of alcohol.

Experience has demonstrated that indiscriminating prohibitive legislation restricts the use of beer containing about four per cent. of alcohol, and promotes the consumption of whisky with ten times that alcoholic strength. Upon this recognized fact is founded the Gothenburg system of Scandinavian Europe, which restricts the sale of distilled liquors under government supervision and encourages the substitution of light fermented beverages, resulting in a great decrease in intemperance.

In response to a strong sentiment along that line, the legislature has provided for a popular non-intoxicating malt beverage, guaranteed under the national and State pure food laws to be pure and wholesome, and their wise action will not only promote true temperance, but will aid the brewing industry of the State in which millions are invested and which employs and supports a large number of people.

In prohibition Georgia and the "dry" cities of North Carolina, two per cent. malt beverages have been defined in the courts as non-intoxicating and are sold everywhere without question. The judge advocate-general of the army has rendered an opinion holding that as the Georgia authorities regard such drinks as non-intoxicating, they shall be classed as soft drinks and can be sold at army post exchanges in the State without violating the anti-canteen law.

When your food seems to nauseate take Kodol. Take Kodol now and until you know you are right again. There isn't any doubt what it will do and you will find the truth of this statement verified after you have used Kodol for a few weeks. It is sold here by W. F. Creighton & Co.

The Southern Presbyterian Assembly in session in Greensboro, N. C., yesterday received reports of candidates for the ministry being on the increase. The afternoon was devoted to work in committees, and at night the subject of negro evangelism was considered.

FRIGHTENED TO DEATH.

Frightened at the sight of a spot of blood on her waist, Mrs. Katherine Hardigan, of Flatbush, N. Y., dropped dead yesterday. The young woman died from fright. Mrs. Hardigan, a widow of a few months, was preparing breakfast. Her sister, Rosa Loganassini, was aiding her. Mrs. Hardigan had gone to the kitchen for a loaf of bread and a knife. Her sister stepped into a closet in the room adjoining, and as Mrs. Hardigan passed she opened the door and the blade of the knife struck Mrs. Hardigan just above the heart. It pricked the skin, but the injury was so slight neither noticed it. Half an hour later the mother of the girls came into the dining room. She looked at Mrs. Hardigan, and pointing to the blood stains asked, "Where did you get that?" The young woman's face turned white. She took a single look at the blood spot, leaped quickly to her feet, uttered a shrill cry and, covering her eyes with her hand, fell back to the floor, dead.

Sensational Love Letters,

Clinton, Ill., May 23.—The fight to have read in court the new sensational love letters written to the late Col. Thomas Snell began today when the contestants of his will started the presentation of their case. Whether Judge Philbrick will admit them in evidence, is problematical. The discovery of two letters which may become a part of evidence in the case has revealed the sordid story of a young woman's passionate love of costly attire. The name of the writer of these letters is still secret.

An extract from one of the letters is as follows:

"You dear old darlingest darling: "I love you beyond any words used to describe since the world began. The Solomon songs are foolish twaddle if they are supposed to describe love. My heart beats so fast when I think of your kisses dear, that I have to press both hands against it to still its throbbing. I want you, I want you, I want you."
